About the course Figma web design

Course Presenter : Mavi Design

Figma web design, in this course we will learn how to design stunning, user-friendly websites using Figma. From wireframes to high-fidelity mockups, you'll discover how to bring web ideas to life with modern layout techniques, consistent design systems, and interactive prototypes. Weâ€™ll cover essential web UI principles including spacing, grid systems, color palettes, and typography. Youâ€™ll also learn how to build responsive designs that adapt seamlessly across devices, and how to use auto layout, components, and variants to streamline your workflow. The course walks you through real-world projects such as landing pages, portfolios, and product pages. Whether you're a beginner or looking to polish your skills, this course will give you the confidence to design clean, professional web interfaces. By the end, youâ€™ll be able to deliver complete web design projects that are ready for developer handoff or client presentationâ€”all using Figma. Mavi Design
