About the course Animated typing indicator in figma

Course Presenter : Mavi Design

Animated typing indicator in figma, in this course we will learn how to design and animate a typing indicator using Figmaâ€™s smart animate feature. Youâ€™ll discover how to create smooth, professional-looking chat interface animations that simulate real-time typing bubblesâ€”perfect for modern UI designs. We'll explore how to use auto layout, vector shapes, keyframe transitions, and loop settings to bring the typing effect to life. This course is ideal for UI/UX designers who want to add microinteractions to chat-based applications or messaging platforms. Whether youâ€™re building a prototype or enhancing user experience, this step-by-step guide will equip you with the skills to create an engaging animated typing indicator in Figma. By the end of the course, you'll have a reusable animation component ready to impress in your next design project. Letâ€™s bring your interfaces to lifeâ€”one dot at a time. Mavi Design
