About the course Figma glassmorphism sidebar design

Course Presenter : Mavi Design

Figma glassmorphism sidebar design, in this course we will learn about Figma Glassmorphism Sidebar Design. You'll explore how to design a sleek, modern sidebar using the trendy glassmorphism style, which combines transparency, background blur, soft shadows, and glowing elements to create a frosted glass effect. Weâ€™ll guide you step by step through creating the layout, styling icons, applying visual effects, and making your sidebar both visually appealing and interactive. Whether you're designing for a website or a mobile app, this course will show you how to build a UI component that not only looks stunning but also enhances user experience. Youâ€™ll also learn how to use Figmaâ€™s tools such as auto layout, constraints, and components to keep your design scalable and organized. By the end of the course, youâ€™ll be confident in creating your own glassmorphic sidebars and using this design trend in professional projects. Mavi Design

Web Design Category's Courses
