About the course Figma globe icon design

Course Presenter : Mavi Design

Figma globe icon design, in this course we will learn about Figma Globe Icon Design. Youâ€™ll discover how to create a clean and professional-looking globe icon from scratch using Figmaâ€™s vector and shape tools. We will begin by constructing the base circle using the Ellipse Tool, then add horizontal and vertical curves to represent latitude and longitude lines. You'll also learn how to use the Pen Tool and Boolean operations to combine and subtract shapes, giving your globe icon a detailed and symmetrical appearance. This course will also show you how to apply different styles such as outlines, solid fills, gradients, and shadows to make your icon stand out in UI designs or infographics. Additionally, weâ€™ll convert the design into a reusable component and demonstrate how to scale and adapt it for various screen sizes. Whether you're working on web projects, mobile apps, or branding materials, this course will equip you with the skills to design a modern and versatile globe icon in Figma. Mavi Design
