About the course Create a battery icon in figma

Course Presenter : Mavi Design

Create a battery icon in figma, in this course we will learn about creating a battery icon in Figma. Youâ€™ll explore how to design a clean and functional battery icon suitable for mobile apps, dashboards, and UI projects. Weâ€™ll begin by drawing the battery body using the Rectangle Tool, then add the battery tip and internal level indicators to represent charge levels. Youâ€™ll also learn how to apply fills, strokes, and corner radius to give the icon a modern look. The course will cover alignment techniques, creating variants for different battery levels, and how to convert your design into reusable components. We'll explore how to design both flat and semi-realistic versions of the battery icon, giving you creative flexibility. Whether you're designing an interface or building icon sets, this course will help you master icon design fundamentals in Figma. By the end of the course, youâ€™ll be able to confidently create and customize battery icons that enhance your UI designs with clarity and style. Mavi Design
