About the course Create a Search icon in figma

Course Presenter : Mavi Design

Create a Search icon in figma, in this course we will learn about creating a Search icon in Figma. Youâ€™ll explore how to design a clean, scalable, and visually balanced magnifying glass iconâ€”one of the most common elements in modern UI design. We'll start with the basic structure using the Ellipse Tool to form the lens, then use the Line Tool or Rectangle Tool to create the handle. Youâ€™ll learn how to align and group elements accurately, apply strokes, and adjust corner radii for a polished look. The course also covers styling techniques such as color fills, shadows, and hover states, making the icon ready for interactive designs. Whether you want a minimal outline or a filled style, weâ€™ll guide you through multiple variations. Youâ€™ll also convert your icon into a reusable component to easily integrate it into design systems. By the end, youâ€™ll have the skills to create professional search icons suitable for websites, mobile apps, and UI kitsâ€”all using Figmaâ€™s intuitive design tools. Mavi Design
