About the course Create 3D models with claude AI

Course Presenter : DesignCode

Create 3D models with claude AI, in this course we will learn how to use Claude AI to generate, assist, and enhance 3D modeling workflows. You'll explore how to write effective prompts to generate 3D model concepts, how to translate those ideas into practical designs using 3D software like Blender, and how to refine them with Claude's intelligent suggestions. The course walks you through automating repetitive modeling tasks, creating procedural elements, and integrating AI-assisted design thinking into your creative process. Whether you're a beginner or an experienced 3D artist, this course helps you streamline your design process, save time, and unlock new levels of creativity using AI tools. Get ready to turn your text ideas into stunning 3D models with the help of Claude AI. DesignCode
