About the course Make an app from scratch

Course Presenter : CodeWithChris

Make an app, in this course we will learn how to design, develop, and launch a mobile application from start to finish. Whether youâ€™re a beginner with no coding experience or an aspiring developer, this course will guide you step by step through planning your app idea, designing its interface, choosing the right platform (iOS or Android), and building it using beginner-friendly tools like no-code platforms or popular frameworks such as Flutter and React Native. Youâ€™ll also explore app logic, user interface design principles, and basic backend setup. By the end of the course, youâ€™ll have your very own working app ready to test, publish, or share. This course is perfect for students, entrepreneurs, or anyone who wants to turn a great idea into a real mobile application without being overwhelmed by complex code. Letâ€™s start creating. CodeWithChris

Mobile Development Category's Courses

Course Lesson(9)

Lesson 1 : **How to Make an App Lesson 1 Xcode 16 Updated**

Lesson 2 : **Introduction to Xcode Xcode 16 Updated**

Lesson 3 : **How to Build a User Interface in Xcode Xcode 16 Updated**

Lesson 4 : **Build a War Card Game App Xcode 16 Updated**

Lesson 5 : **Introduction to Swift Coding Xcode 16 Updated**

Lesson 6 : **Swift Functions Xcode 16 Updated**

Lesson 7 : **SwiftUI Buttons and Properties Xcode 16 Updated**

Lesson 8 : **Creating the Logic Xcode 16 Updated**

Lesson 9 : **How to Make an App in 8 Days 2025 Full Tutorial**
