Mindluster Platform

About the course Framer basics for beginners

Course Presenter : Flux Academy

Framer basics, in this course explore the powerful world of interactive design and prototyping. In this course, we will learn about Framer from the ground up, making it perfect for beginners and designers new to the platform. Youâ€™ll discover how to navigate the Framer interface, create responsive layouts, and design interactive components without writing code. Weâ€™ll cover the essential tools, including frames, stacks, text, images, and links, and show how to use drag-and-drop features to quickly build modern, professional web designs. Youâ€™ll also get hands-on with basic animations and transitions to bring your ideas to life. By the end of this course, youâ€™ll have the skills to confidently build and share interactive prototypes and websites with Framer. Letâ€™s begin the Framer Basics course and start designing smart, beautiful experiences today. Flux Academy
