# About the course E Commerce web design

### Course Presenter : Flux Academy

E-Commerce web design, in this course we will learn about E-Commerce Web Design and how to create visually appealing, user-friendly, and conversion-focused online store interfaces. Youâ€™ll start by understanding the core principles of designing for e-commerce platforms, including layout structure, product hierarchy, and intuitive navigation. Weâ€™ll cover designing key pages like home, category, product detail, and checkout, while exploring best practices for CTAs, trust signals, and mobile responsiveness. Using tools like Figma, youâ€™ll build wireframes and high-fidelity mockups, focusing on both user experience and brand identity. The course also includes tips on optimizing design for performance and accessibility, ensuring your website is inclusive and effective. Whether you're designing from scratch or improving an existing store, this course provides practical strategies and tools to help you create e-commerce websites that look great and drive sales. By the end, youâ€™ll be confident in crafting modern, professional e-commerce designs for any product or market. Flux Academy
