About the course Figma for UX UI design

Course Presenter : DesignerUp

Figma for UX/UI design, in this course we will learn about using Figma for UX/UI design and how it serves as a powerful, collaborative platform for creating user-centered digital experiences. Youâ€™ll begin by exploring the Figma interface, learning how to use essential tools like frames, shapes, text, components, and auto layout. The course covers how to design wireframes, mockups, and fully interactive prototypes for web and mobile interfaces. Youâ€™ll also learn how to work with design systems, use shared libraries, and collaborate in real time with teams or stakeholders. Weâ€™ll guide you through UX workflows such as creating user flows, designing with accessibility in mind, and preparing files for handoff to developers. Whether youâ€™re just getting started or want to sharpen your UX/UI design skills, this course gives you practical, hands-on experience with Figmaâ€™s most powerful features. By the end, youâ€™ll be equipped to design and present professional, user-friendly digital interfaces with confidence. DesignerUp
