# About the course Recycling plastic bottles

### Course Presenter : DIY Garden Ideas

Recycling plastic bottles, in this course Start the Recycling Plastic Bottles Course and learn how to turn everyday waste into useful and creative items. In this course, we will explore the importance of recycling plastic bottles for environmental sustainability and discover practical ways to repurpose them at home, in schools, or for small businesses. You will learn step-by-step methods to clean, cut, and shape bottles into planters, organizers, bird feeders, home decor, and even vertical gardens. The course includes tips on using simple tools safely and introduces artistic techniques to add beauty and function to recycled items. Youâ€™ll also gain insight into how plastic recycling helps reduce pollution, save resources, and promote a cleaner planet. Whether you're a teacher, student, eco-enthusiast, or DIY lover, this course will empower you with the knowledge and skills to creatively reuse plastic bottles and inspire others to do the same. By the end, youâ€™ll be able to make a positive environmental impactâ€”one bottle at a time. DIY Garden Ideas
