About the course Growing onions

Course Presenter : GrowVeg

Growing onions, in this course Start the Growing Onions Course and master the techniques needed to grow healthy, flavorful onions in your home garden or farm. In this course, we will learn about the different types of onionsâ€”red, white, yellow, and greenâ€”and how to choose the best variety for your region and growing season. Youâ€™ll explore soil preparation, seed starting, and transplanting methods, along with spacing and depth guidelines to promote proper bulb formation. The course covers essential care practices such as watering, fertilizing, and weeding, as well as how to protect your crop from common pests and diseases like onion flies and mildew. Youâ€™ll learn how to recognize signs of maturity, harvest onions at the right time, and cure them for long-term storage. Whether growing from seeds, sets, or transplants, this step-by-step course will guide you through the entire onion growing process. By the end, you'll have the knowledge and confidence to grow a bountiful onion harvest with excellent taste and shelf life. GrowVeg
