About the course Data Science and Data Preparation

Course Presenter : SKILLFLOOR

Data Science and Data Preparation, in this course we will learn about the fundamentals of Data Science and how to prepare data effectively for analysis. This 900-letter course is designed to give you a solid foundation in working with raw datasets, identifying missing or inconsistent data, and applying essential techniques to clean, transform, and structure data for modeling. You'll explore real-world tools like Python and Excel, understand data types, encoding methods, outlier handling, and normalization. By the end of the course, you'll be equipped to manage datasets confidently and apply basic data science principles for informed decision-making. Whether you're starting your data journey or reinforcing core skills, this course bridges the gap between raw data and meaningful insights. Perfect for beginners or anyone aiming to improve their data preparation workflow. Ready to start? Enroll now and begin mastering the essential step of any data science process SKILLFLOOR

Computer Science Category's Courses

Course Lesson(15)

Lesson 1 : **Data Science Industry Applications Part 1 Data Science Course in Kannada Skillfloor**

Lesson 2 : **ML Clustering Classification And Regression Data Science Course in Kannada Skillfloor**

Lesson 3 :
Types of Machine Learning Supervised vs Unsupervised Data Science Course in Kannada Skillfloor

Lesson 4 :
Machine Learning Workflow Popular Machine Learning Algorithms Data Science Kannada Skillfloor

Lesson 5 : **What is Machine Learning Machine Learning vs Artificial Intelligence Kannada Skillfloor**

Lesson 6 : **Data Science Project workflow Data Science Project stages Kannada Skillfloor**

Lesson 7 :
Introduction to Reinforcement Learning GAN Generative Passive Models Kannada Skillfloor

Lesson 8 : **Introduction to AI Computer Vision Natural Language Processing Kannada Skillfloor**

Lesson 9 : **EDA Insight Gathering Demo in Tableau Data Science Course in Kannada Skillfloor**

Lesson 10 :
Prediction with ML model Delivering Business Value Data Science Course in Kannada Skillfloor

Lesson 11 :
Data Preparation Machine learning Model building Data Science Course in Kannada Skillfloor

Lesson 12 : **Business Requirement Use Case Data Science Course in Kannada Skillfloor**

Lesson 13 : **Types of Analytics Data Science Course in Kannada Skillfloor**

Lesson 14 : **Data Science vs Business Analytics Data Science Course in Kannada Skillfloor**

Lesson 15 : **Introduction to Data Science Data Science Course in Kannada Skillfloor**
