# About the course Corporate finance fundamentals

### Course Presenter : Corporate Finance Institute

Corporate finance, in this course we will learn the key principles and practices that drive financial decision-making in corporations. Youâ€™ll explore how companies raise capital, manage financial resources, assess investment opportunities, and measure performance to maximize shareholder value. The course covers essential topics such as financial statement analysis, time value of money, capital budgeting, cost of capital, risk and return, and capital structure decisions. You will also gain insights into dividend policy, working capital management, mergers and acquisitions, and corporate governance. Through real-world examples, case studies, and practical tools, you'll develop the skills needed to evaluate financial strategies and make informed decisions. Whether you're a business student, finance professional, or aspiring CFO, this course provides a solid foundation in the financial mechanics that keep organizations running efficiently and profitably.
