# About the course Spring AI

### Course Presenter : Telusko

Spring AI , in this course we will learn how to use Spring AI to connect with powerful AI services like OpenAI, Hugging Face, and Azure Cognitive Services. You will explore how to send prompts to models, receive intelligent responses, and integrate AI features into your Spring Boot apps. Topics include setting up Spring AI, building chatbots, processing natural language, and working with image generation models. The course also covers real-world use cases such as smart assistants, content generators, and automated summarizers. By the end, youâ€™ll be able to create AI-powered services, handle API calls efficiently, and embed intelligent behavior into your Java-based applications using best practices. Start your journey with the Spring AI course and unlock the power of artificial intelligence within the familiar Spring framework. Telusko

**Artificial Intelligence Category's Courses**

# Course Lesson(9)

Lesson 1 : **1 Spring AI Tutorial Introduction**

Lesson 2 : **2 Spring AI OpenAI and Anthropic API keys**

Lesson 3 : **3 Spring AI Ollama Setup**

Lesson 4 : **AI & ML Full Course 2026 | Complete Artificial Intelligence and Machine Learning**

Lesson 5 : **4 Spring AI Running the UI**

Lesson 6 : **5 Spring AI Setting the Spring Boot with Spring AI Project**

Lesson 7 : **6 Spring AI Working with OpenAI ChatModel**

Lesson 8 : **7 Spring AI Working with Anthropic and ChatClient**

Lesson 9 : **8 Spring AI Working with Ollama and MetaData**
