About the course 10X coding tools for developers

Course Presenter : AI LABS

10X coding tools, in this course we will learn about the most powerful and essential tools that can help developers become 10 times more productive. Youâ€™ll explore how to use AI-powered coding assistants like GitHub Copilot, automate repetitive tasks with extensions and scripts, manage your code snippets efficiently, and debug smarter using modern IDE features. We'll also cover terminal productivity tips, code formatting tools like Prettier, testing automation, and more. Whether youâ€™re a beginner or an experienced developer, this course will help you streamline your workflow, reduce manual effort, and focus more on solving real problems. By the end of this course, youâ€™ll have a personalized toolkit of 10X coding tools that will boost your efficiency, improve code quality, and make development faster and more enjoyable. AI LABS

Programming Category's Courses

Course Lesson(8)

Lesson 1 : **I Made Cursor AI Fix Its Mistakes as It Codes**

Lesson 2 : **All My AI Apps Are Connected to One MIND â€” With Open Memory**

Lesson 3 : **Why Isn t Anyone Talking About This Vibe Coding Tool**

Lesson 4 : **I Just Found a Way You Can Use Cursor AI for FREE**

Lesson 5 : **I Just Talk to My MCP AI Agents â€” And They Get Stuff DONE**

Lesson 6 : **I Made MCP AI Agents That Automate Every App I Build**

Lesson 7 : **Here Is How to Vibe Code Large Scale Projects**

Lesson 8 : **OpenAI Codex Hacked Use It with Gemini 2 5 PRO The Best Coding Model**
