

About the course Making ai cartoon animation

Course Presenter : Tao Prompts

Making ai cartoon animation, in this course learn how to bring characters and stories to life using artificial intelligence. In this course, we will explore how to create animated cartoon videos using AI-powered tools like Animaker, Toonly, Pika Labs, and Runway. You'll discover how to design characters, generate scenes, animate movements, and add voiceovers or dialogue using text-to-speech and lip-syncing features. We'll guide you through building storyboards, choosing animation styles, and producing short episodes or explainer videos with a cartoon flair. Whether you're an educator, marketer, or aspiring animator, this course gives you step-by-step instructions to simplify the animation process without needing traditional drawing or motion skills. Unlock your creativity and produce fun, colorful, and engaging AI-generated cartoons that can be shared on YouTube, social media, or in presentations. Tao Prompts
