About the course Ai photography basics

Course Presenter : Tao Prompts

Ai photography, in this course we will learn about the core concepts and tools that power AI-generated photography, such as Midjourney, DALLÂ·E, Leonardo AI, and Adobe Firefly. Youâ€™ll discover how to write effective prompts, select styles, control lighting, and simulate photographic elements like depth of field, lens blur, and composition. Weâ€™ll cover different categories including portraits, landscapes, product shots, and editorial visualsâ€”all without using a camera. You'll also learn how to enhance your AI photos with basic editing techniques and understand the ethical and copyright considerations around AI art. Whether you're a beginner or a creative professional looking to incorporate AI into your workflow, this course provides a clear, practical introduction to the exciting world of AI photography. Tao Prompts

Artificial Intelligence Category's Courses

Course Lesson(8)
