About the course WordPress Plugins

Course Presenter : SiteGround com

WordPress Plugins, in this course we will learn everything about using, managing, and selecting the best plugins for your WordPress website in 2025. Youâ€™ll explore how plugins extend WordPress functionality, from adding contact forms and SEO tools to improving security, speed, and user engagement. The course will guide you through installing both free and premium plugins, configuring them correctly, and troubleshooting common issues. You'll also learn how to evaluate plugin quality, understand compatibility with themes and WordPress versions, and maintain site performance. Weâ€™ll cover essential plugins like Elementor, WPForms, Rank Math, WooCommerce, Wordfence, and more. By the end, youâ€™ll have the knowledge to enhance your website with the right plugins for your goalsâ€”whether building a blog, portfolio, or online storeâ€”without needing to write any code. This course is perfect for beginners and site owners who want full control and confidence over their plugin setup. SiteGround com
