

About the course Angular 12

Course Presenter : Dr. N. Jeyaraj

Angular 12 is a powerful framework for building web applications. It provides a robust set of tools and libraries that make it easy to create complex, scalable applications. The course covers the fundamentals of Angular 12, including the new features and improvements. It also covers the advanced topics, such as the new routing system, the new forms library, and the new testing framework. The course is designed for developers who are already familiar with Angular and want to learn the latest features and improvements. It is also suitable for developers who are new to Angular and want to learn the basics of the framework. The course is presented by Dr. N. Jeyaraj, a seasoned developer and educator with over 10 years of experience in the field of web development. He has authored several books and articles on Angular and has been a speaker at numerous conferences and events. The course is available on the Mindluster platform, which provides a comprehensive learning experience with interactive exercises, quizzes, and a supportive community of learners and experts.

Programming Category's Courses

Course Lesson(8)

Lesson 1 : [Angular 12: Introduction to the new features and improvements](#)

Lesson 2 : [Angular 12: The new routing system](#)

Lesson 3 : [Angular 12: The new forms library](#)

Lesson 4 : [Angular 12: The new testing framework](#)

Lesson 5 : [Angular 12: The new CLI](#)

Lesson 6 : [Angular 12: The new DevTools](#)

Lesson 7 : [Angular 12: The new Performance](#)

Lesson 8 :
