About the course Recovery schedules in primavera P6

Course Presenter : SoftEdemy

Recovery schedules in primavera P6m, in this course we will learn about Recovery Schedules in Primavera P6. Recovery schedules are essential tools used when a project faces delays or falls behind the original baseline plan. This course will guide you through identifying project delays, analyzing the critical path, and understanding the causes of variances. You will learn how to create and implement effective recovery schedules by adjusting activities, reallocating resources, and applying schedule compression techniques such as crashing and fast tracking. The course also covers updating progress, comparing recovery plans with baselines, and monitoring recovery progress to ensure timely project completion. By the end, you will be able to develop and manage recovery schedules confidently to keep projects on track using Primavera P6â€™s powerful features. SoftEdemy
