About the course English Phonetics and IPA

Course Presenter : English Like A Native

English Phonetics, In this course, we will learn about the sounds of the English language, how they are produced, and how they are used in communication. You will explore the three main branches of phonetics: articulatory (how sounds are made), acoustic (the physical properties of sounds), and auditory (how we hear and interpret sounds). Special focus will be given to the International Phonetic Alphabet (IPA) to help you read and write English sounds accurately. You'll study consonants, vowels, stress, intonation, and connected speech to improve your pronunciation and listening skills. Through guided practice, transcription exercises, and real speech examples, you'll become more confident and accurate in your spoken English. Start the English Phonetics Course now and build a solid foundation in understanding and producing clear, natural English sounds. English Like A Native
