About the course Laravel VueJS 2025

Course Presenter : Tony Xhepa

Laravel VueJS 2025, in this course we will learn about Laravel VueJS 2025 course, a powerful combination for building modern, dynamic, and high-performance web applications. You will start by mastering Laravel, the popular PHP framework, learning routing, controllers, models, migrations, and API creation. Then, you will dive into Vue.js 2025, covering the Composition API, components, props, events, and reactive data binding. We will integrate Laravel as the backend and Vue.js as the frontend to create seamless Single Page Applications (SPAs) with real-time features, authentication, and API consumption. You will also learn how to optimize performance, secure your application, and deploy it for production. By the end of the Laravel VueJS 2025 course, you will have the skills to build professional, scalable full-stack applications that meet modern industry standards. Tony Xhepa
