About the course Install vue pinia

Course Presenter : Tony Xhepa

Install vue pinia, in this course Install Vue Pinia course is designed to teach you how to set up and use Pinia, the official state management library for Vue 3 applications. In this course, we will learn how to install Pinia via NPM, configure it in a Vue 3 project, and integrate it into main.js to make state management accessible throughout the app. You will explore how to create your first store using defineStore, manage application state, define actions to modify data, and use getters for computed properties. We will cover accessing and updating store data from components, working with multiple stores, and organizing them for scalability in large projects. Additionally, you will learn about persisting state across page reloads, debugging with Pinia DevTools, and following best practices for maintainable state management. By the end of this course, you will be confident in setting up and working with Vue Pinia in real-world applications. Tony Xhepa

Programming Category's Courses

Course Lesson(6)

Lesson 1 : **Install Pinia Vue Pinia Tutorial**

Lesson 2 : **2 Create Movies Store Vue Pinia Tutorial**

Lesson 3 : **3 Search Movies Vue Pinia Tutorial**

Lesson 4 : **4 Get Single Movie Vue Pinia Tutorial**

Lesson 5 : **5 Work with Getters Vue Pinia Tutorial**

Lesson 6 : **Vue Pinia Full Tutorial Learn Vue Pinia**
