About the course Vue router 4

Course Presenter : Tony Xhepa

Vue router 4 , in this course is designed to teach you how to implement powerful and flexible routing in your Vue 3 applications. In this course, we will learn about the core concepts of Vue Router 4, including creating and configuring routes, navigating between pages, and passing dynamic route parameters. You will explore features like nested routes, named routes, and programmatic navigation. The course also covers advanced topics such as route guards for authentication, lazy loading components for better performance, and handling 404 pages. We will work on practical examples to demonstrate how Vue Router 4 integrates seamlessly with Vue 3, providing smooth client-side navigation without full page reloads. By the end of the course, you will be confident in building scalable, single-page applications (SPAs) with organized and efficient navigation using Vue Router 4. Tony Xhepa

Programming Category's Courses

Course Lesson(6)

Lesson 1 : **Vue Router 4 Tutorial for Beginners Create Vue App**

Lesson 2 : **Vue Router 4 Tutorial for Beginners Install Vue Router 4 and Create First Routes**

Lesson 3 : **Vue Router 4 Tutorial for Beginners 3 Lazy Loading Routes**

Lesson 4 : **Vue Router 4 Tutorial for Beginners 4 Add Tailwind CSS and Style Active Routes**

Lesson 5 : **Vue Router 4 Tutorial for Beginners 5 Dynamic Routes with Composition API**

Lesson 6 : **Vue Router 4 Tutorial for Beginners 5 Route Props with Composition API**
