About the course Vue js 3 fundamentals

Course Presenter : Tony Xhepa

Vue.js 3 fundamentals, in this course you will learn the essential concepts and skills needed to build dynamic, interactive web applications using Vue.js 3. The course starts with setting up a Vue development environment and understanding the new Composition API, reactivity system, and lifecycle hooks. Youâ€™ll explore how to create and structure components, manage state and props, and implement event handling and two-way data binding. The course also covers directives, conditional rendering, list rendering, and working with forms. Youâ€™ll learn about computed properties, watchers, and how to handle asynchronous data fetching. Styling components, managing global state with Pinia, and using Vue Router for navigation will also be introduced. By the end, youâ€™ll have a solid foundation in Vue.js 3, enabling you to build scalable, maintainable, and modern single-page applications with confidence. Tony Xhepa

Programming Category's Courses

Course Lesson(6)

Lesson 1 : **01 Vue js 3 Fundamentals Tutorial Install Vue 3 and Vue CLI**

Lesson 2 : **02 Vue js 3 Fundamentals Tutorial Display Data**

Lesson 3 : **03 Vue js 3 Fundamentals Tutorial Create and Remove Items**

Lesson 4 : **04 Vue js 3 Fundamentals Tutorial Computed Properties and Watchers**

Lesson 5 : **05 Vue js 3 Fundamentals Tutorial Working with Components**

Lesson 6 : **06 Vuejs Emitting Custom Events For Parent Child Communication**
