Mindluster Platform

About the course Install laravel livewire

Course Presenter : Tony Xhepa

Install laravel livewire, in this course provides a step-by-step guide to setting up Laravel Livewire in your Laravel projects, covering both fresh installations and adding it to existing apps. Youâ€™ll learn how to install Livewire via Composer, configure it with Blade templates, and integrate it seamlessly with tools like Vite, Tailwind CSS, and Alpine.js. The course also walks you through installing Livewire on various environmentsâ€”Windows, macOS, Linux, and Dockerâ€”and pairing it with Laravel Breeze or Jetstream. Youâ€™ll explore best practices, troubleshoot common errors, and understand how to prepare your environment for Livewireâ€™s reactive components, ensuring smooth development and deployment. Tony Xhepa
