About the course Power BI UI UX design roadmap

Course Presenter : Pavan Lalwani

Power BI UI/UX design roadmap, in this course is designed to guide beginners through creating visually appealing and user-friendly dashboards in Power BI. Youâ€™ll learn the principles of effective UI/UX design, including layout planning, consistent color schemes, appropriate typography, and optimal chart selection. The course covers organizing data visuals for clarity, applying spacing and alignment for balance, and using interactive features to enhance the user experience. Youâ€™ll also explore best practices for storytelling with data, ensuring that your dashboards not only look professional but also communicate insights clearly and intuitively. Practical examples and templates will help you apply these techniques step-by-step. By the end, youâ€™ll have the skills to design Power BI reports that are visually engaging, easy to navigate, and optimized for decision-making across various business contexts. Pavan Lalwani
