About the course Growing peonies in containers

Course Presenter : Brainy Garden

Growing peonies in containers, in this course teaches you how to successfully cultivate these elegant, long-lived flowers in pots, making them perfect for patios, balconies, or small gardens. You will begin by learning how to choose the right peony varieties suitable for container growth and select large, deep pots that provide enough space for their long root systems. The course covers preparing nutrient-rich, well-drained soil, planting methods, and proper positioning to ensure at least 6 hours of sunlight daily. Step-by-step lessons explain watering practices that keep the soil moist but not soggy, fertilization routines for strong blooms, and pruning methods to maintain plant health. You will also learn how to manage pests and diseases, overwinter potted peonies in colder climates, and repot when necessary. By the end, you will have the knowledge and confidence to grow thriving peonies in containers that reward you with stunning, fragrant flowers year after year. Brainy Garden
