About the course Making solar system working model with lights

Course Presenter : howtofunda

Making solar system working model with lights, in this course is an exciting hands-on learning experience designed to help students understand the structure and function of our solar system in a creative and interactive way. In this course, learners will explore how to design and build a 3D model of the sun and planets using simple, affordable materials while integrating electrical circuits to add lights for a realistic effect. The illuminated model highlights the sun as the main source of energy and light, while the placement and movement of the planets around it demonstrate concepts such as revolution, rotation, seasons, and day and night cycles. This practical project not only strengthens scientific knowledge but also enhances skills in creativity, problem-solving, teamwork, and presentation. By the end of the course, students will have a functional solar system model that is visually engaging and scientifically accurate, making it perfect for school projects, science fairs, or classroom demonstrations. howtofunda

Science Category's Courses

Course Lesson(13)

Lesson 1 : **solar system working model with lights rotating science project for exhibition craftpiller**

Lesson 2 : **solar eclipse lunar eclipse earth rotation working model 3d science project diy craftpiller**

Lesson 3 : **solar system working model new design innovative science project diy craftpiller**

Lesson 4 : **solar system working model science project for exhibition simple cardboard craftpiller**

Lesson 5 : **solar system working model for science exhibition with lights and stars diy craftpiller**

Lesson 6 :
solar system working model making for science project diy at home simple and easy craftpiller

Lesson 7 :
solar system working model with lights innovative ideas science project exhibition craftpiller

Lesson 8 : **solar eclipse lunar eclipse earth rotation working model 3d science project craftpiller**

Lesson 9 : **solar system working model latest designs science project simple and easy craftpiller**

Lesson 10 : **solar lunar eclipse working model science project diy howtofunda craftpiller**

Lesson 11 :
solar system working model science project diy innovative new design led light craftpiller

Lesson 12 :
how to make solar system planets using thermocol balls science project howtofunda craftpiller

Lesson 13 : **how to make the solar system planets in easy and simple manner diy craftpiller**
