About the course Shapes model 3d making using cardboard

Course Presenter : howtofunda

Shapes model 3d making using cardboard, in this course teaches students how to design and construct three-dimensional geometric shapes using simple materials like cardboard, glue, scissors, and colors. Through hands-on learning, students explore basic geometry concepts such as edges, faces, and vertices while creating shapes like cubes, pyramids, cones, spheres, and prisms. The course focuses on improving mathematical understanding, spatial visualization, and creativity. Learners also practice measurement, accuracy, and symmetry to build precise models. This activity helps students connect classroom geometry with real-world applications in design, architecture, and engineering. By the end of the course, participants will have created colorful, durable 3D models that can be used for school displays or math exhibitions. Itâ€™s an engaging and educational project that strengthens both artistic and analytical skills in a fun and interactive way. howtofunda

Science Category's Courses

Course Lesson(17)

Lesson 1 :
shapes model 3d 2D making using cardboard and paper maths model making idea DIY howtofunda

Lesson 2 :
Balance Weighing Scale 3D Science Working Model DIY science project howtofunda class 9

Lesson 3 : **Park Model Making Craft Ideas DIY project at home HowToFunda still model**

Lesson 4 :
hospital model making using cardboard and paper health cleanliness howtofunda DIY still

Lesson 5 : **parts of plants science project model diy at home easily howtofunda**

Lesson 6 : **Water Cycle Model Making DIY Science Project Howtofunda still model**

Lesson 7 : **Animal Cell Model 3D model making using cardboard and paper howtofunda still model**

Lesson 8 : **how to make small house making using cardboard with garden howtofunda DIY project**

Lesson 9 :
balanced diet working wheel model for healthy life science project howtofunda still model

Lesson 10 :
human digestive system model making using cardboard science fair project foam sheet howtofunda

Lesson 11 :
state of matter working model science project diy howtofunda craftpiller class 9 class 11

Lesson 12 :
sea habitat model making using cardboard and paper diorama model making howtofunda

Lesson 13 : **landform model making using cardboard 3D model howtofunda DIY still model**

Lesson 14 : **water cycle project 3D model making using cardboard and paper DIY Crafts howtofunda**

Lesson 15 :
lever science project simple machine working model 3d seesaw weighing balance howtofunda

Lesson 16 :
post office box making using paper and cardboard lettter box making howtofunda craft ideas

Lesson 17 :
seed germination project model 3d making diy science model best out of waste howtofunda
