About the course Growing Peppers at home

Course Presenter : Epic Gardening

Growing Peppers at home, in this course is a practical course that guides you through the full process of cultivating vibrant, flavorful peppersâ€”whether sweet or hotâ€”right in your garden or containers. The course begins with choosing the right pepper varieties and preparing nutrient-rich, well-drained soil for optimal growth. Youâ€™ll learn the best planting methods, germination conditions, and temperature requirements for healthy seedlings. Lessons include watering and fertilizing schedules, pruning tips for bushier plants, and natural pest control techniques to protect your crops. Youâ€™ll also discover how to support pepper plants as they grow and identify when fruits are ready for harvest for maximum flavor and color. The course provides practical demonstrations suitable for beginners and home gardeners. By the end, youâ€™ll be able to grow high-yield, delicious peppers from seed to harvest with confidence and minimal effort. Epic Gardening
