About the course Growing peppers in containers

Course Presenter : The Ripe Tomato Farms

Growing peppers in containers, in this course teaches you how to cultivate vibrant and flavorful peppers, even in limited spaces. Youâ€™ll learn how to select the right pepper varieties for container gardening, choose suitable pots with proper drainage, and prepare nutrient-rich soil for healthy root development. The course covers seed planting, watering schedules, and the ideal sunlight and temperature conditions for steady growth. Youâ€™ll also discover how to fertilize efficiently, prune plants for better airflow, and protect them from pests naturally. Practical lessons include identifying when peppers are ready to harvest and how to store them for long freshness. Whether you prefer sweet bell peppers or spicy chili varieties, this course helps you grow abundant, colorful, and organic peppers in pots or balcony gardens using easy, space-saving techniques. The Ripe Tomato Farms

Agriculture Category's Courses

Course Lesson(98)
