About the course Growing herb propagation

Course Presenter : The Ripe Tomato Farms

Growing herb propagation, in this course teaches learners how to multiply and grow herbs using simple, effective techniques. Youâ€™ll discover the main propagation methods â€” seeds, cuttings, division, and layering â€” and learn how to choose the right one for each herb type. The course covers soil preparation, humidity, and lighting conditions needed for successful growth, along with tips for creating the perfect environment for young plants. Practical lessons show how to root herb cuttings like mint, basil, rosemary, and thyme, and how to transplant seedlings safely into pots or garden beds. Youâ€™ll also explore natural pest control, watering routines, and organic fertilization to ensure healthy, aromatic herbs. By the end, youâ€™ll be able to produce your own herb garden from existing plants, save money, and enjoy a continuous supply of fresh herbs for cooking, medicine, or decoration throughout the year. The Ripe Tomato Farms

Agriculture Category's Courses

Course Lesson(210)

Lesson 1 : **How To Grow Rosemary From Cuttings Two Ways BOTH Easy**

Lesson 2 : **How To Grow The Best Basil**
