Mindluster Platform

About the course Power apps

Course Presenter : WiseOwlTutorials

Power apps, in this course introduces you to Microsoftâ€™s low-code platform that allows you to create custom business applications without advanced programming skills. Youâ€™ll learn how to design interactive apps that connect to data from Excel, SharePoint, and Dataverse. The course covers building user interfaces, adding controls, managing data sources, and automating workflows through integration with Power Automate. Youâ€™ll also explore how to publish apps for web and mobile use, apply formulas for logic, and secure your data with permissions. By the end, youâ€™ll be able to build efficient, professional-grade apps that streamline business operations, improve collaboration, and enhance productivity within your organization.
