About the course Excel formulas and functions

Course Presenter : Simon Sez IT

Excel formulas and functions, in this course teaches you how to harness the full power of Excel to analyze, calculate, and manage data efficiently. Youâ€™ll learn to use essential formulas like SUM, AVERAGE, and IF, along with advanced functions such as VLOOKUP, XLOOKUP, INDEX, MATCH, and TEXT functions. The course also covers logical, statistical, and date functions to automate calculations and solve complex data problems. Through hands-on exercises, youâ€™ll discover how to combine multiple functions to create dynamic formulas and improve accuracy. By the end, youâ€™ll master how to simplify data analysis, enhance reporting, and work smarter in Excel. Simon Sez IT
