About the course Microsoft excel 365

Course Presenter : Simon Sez IT

Microsoft excel 365, in this course provides a complete guide to mastering Excelâ€™s modern tools and cloud-based features. Youâ€™ll learn how to create, edit, and manage spreadsheets, use essential and advanced formulas, and organize data efficiently. The course covers charts, PivotTables, data validation, and conditional formatting to help you analyze information clearly. Youâ€™ll also explore Excel 365â€™s unique features like real-time collaboration, dynamic arrays, and integration with OneDrive and Power BI. Through practical lessons, youâ€™ll gain skills to automate tasks, visualize insights, and work smarter across devices. By the end, youâ€™ll confidently use Excel 365 for both personal and professional success. Simon Sez IT
