Mindluster Platform

About the course Intermediate excel 365

Course Presenter : Simon Sez IT

Intermediate excel 365, in this course is designed to help learners move beyond the basics and develop strong data management and analysis skills. Youâ€™ll learn to use advanced formulas such as IF, VLOOKUP, XLOOKUP, and INDEX-MATCH, as well as apply data validation and conditional formatting for smarter automation. The course covers creating and managing PivotTables, linking multiple worksheets, and using named ranges to organize complex data. Youâ€™ll also explore Power Query, data visualization with charts, and collaboration features through Excel 365â€™s cloud tools. By the end, youâ€™ll be confident in handling professional-level spreadsheets efficiently and accurately. Simon Sez IT
