About the course Excel 365

Course Presenter : Simon Sez IT

Excel 365 , in this course provides a complete learning journey to master Microsoftâ€™s most powerful spreadsheet tool in its cloud-connected version. Youâ€™ll explore everything from the fundamentals of data entry, formulas, and formatting, to advanced skills like data analysis with PivotTables, charts, Power Query, and dynamic functions such as XLOOKUP and FILTER. The course emphasizes real-world applications, helping you automate tasks, build reports, and collaborate online through OneDrive and Teams. Learners will gain practical experience in managing large datasets, using conditional formatting, creating dashboards, and applying logical and statistical formulas. Whether youâ€™re a student, professional, or data analyst, this course equips you with modern Excel techniques to boost productivity and make data-driven decisions confidently. Simon Sez IT
