About the course Implement banner ad in flutter

Course Presenter : ProgrammingKnowledge

Implement banner ad in flutter, in this course teaches you how to integrate Google AdMob banner ads into your Flutter applications to monetize effectively. Youâ€™ll learn step by step how to install and configure the google_mobile_ads package, initialize the Mobile Ads SDK, and create responsive banner ads that fit seamlessly into your appâ€™s layout. The course covers both Android and iOS setup, including adding App IDs and ad unit IDs in the manifest and Info.plist files. Youâ€™ll also explore handling ad events, using test ads safely during development, and positioning banners at the top or bottom of the screen. Practical lessons include optimizing ad performance, managing loading errors, and ensuring user-friendly placement without disrupting the app experience. By the end, youâ€™ll be able to confidently add and manage banner ads in any Flutter project. ProgrammingKnowledge

Programming Category's Courses

Course Lesson(6)
