About the course Creating access key in AWS

Course Presenter : ProgrammingKnowledge

Creating access key in AWS, in this course teaches you how to generate secure access keys to connect applications or command-line tools with your AWS account. Youâ€™ll learn step by step how to use the AWS Management Console to create, download, and manage your Access Key ID and Secret Access Key within the IAM (Identity and Access Management) service. The course explains the purpose of access keys, their role in authentication, and how they enable programmatic access to AWS services such as S3, EC2, and DynamoDB. Youâ€™ll also learn best security practices, including using IAM users instead of root credentials, rotating keys regularly, and applying least-privilege permissions. By the end, youâ€™ll confidently create and manage AWS access keys safely for cloud automation and API integration. ProgrammingKnowledge

Computer Science Category's Courses

Course Lesson(20)

Lesson 1 : **How to Create Access Key and Secret Key in AWS Account 2025**

Lesson 2 : **How to Deploy a Django App on AWS Elastic Beanstalk AWS Tutorial for Beginners 2025**

Lesson 3 :
How To Deploy a Web Application Using Elastic Beanstalk AWS Tutorial for Beginners 2025

Lesson 4 : **How to Connect a Django App to AWS RDS PostgreSQL Database 2025**

Lesson 5 : **How to Connect a Django App to AWS RDS MySQL Database 2025**

Lesson 6 : **How to Connect a Flask App to AWS RDS PostgreSQL Database Step by Step Guide 2025**

Lesson 7 : **How to Create a MySQL Database on AWS RDS and Connect from Local Machine 2025**

Lesson 8 :
How to Create a PostgreSQL Database on AWS RDS and Connect from Local Machine 2025

Lesson 9 : **How to Deploy a Flask App Using AWS ECR AWS EC2 Step by Step Guide 2025**

Lesson 10 : **How to Deploy a Simple Dockerized Web App Using AWS ECR EC2 Step by Step Guide**

Lesson 11 : **How to Deploy a Django App on AWS EC2 Django Deployment Tutorial 2025**

Lesson 12 :
How To Deploy a Flask App on AWS EC2 Flask on EC2 Running a Flask App on AWS EC2 2025

Lesson 13 :
How to Remotely SSH Connect Visual Studio Code to AWS EC2 VS Code Remote SSH Setup 2025

Lesson 14 :
How to Create a Virtual Machine on AWS EC2 Launching Your First AWS EC2 Instance Free Tier 2025

Lesson 15 :
How to Push Pull and Run a Docker Image Using AWS ECR Elastic Container Registry Tutorial 2025

Lesson 16 :

How to PUSH and RUN a Docker Image for a Flask App with AWS Elastic Container Registry ECR 2025

Lesson 17 : **How to Use Python with AWS S3 Python Boto3 Tutorial 2025**

Lesson 18 :
How to Use AWS Transcribe for Speech to Text and Polly for Text to Speech Voice Translation 2025

Lesson 19 :
How to Use AWS Textract API for Extracting Text and Data from Documents Python 2025

Lesson 20 : **How to Create an AWS Free Tier Account Access AWS services For Free 2025**
