About the course Mandarin Chinese Language Elementary Level 2

Can you learn Mandarin in 3 months? Well, let's start with the good news. With the right work and attitude, you can make massive progress in your Chinese learning in three months. And if having a conversation in Mandarin Chinese is your primary goal, it can be achievable with just three months of study, even if you're starting from zero.Is Mandarin a hard language to learn? 1. Mandarin Chinese. Interestingly, the hardest language to learn is also the most widely spoken native language in the world. ... Mandarin Chinese (the most common dialect) has four tones, so one word can be pronounced four different ways, and each pronunciation has a different meaning.Learn Chinese in 6 Months â€“ FAQ's Can you become fluent in Chinese after 6 months? Simply put, no. It's not possible. You can make great progress for sure, but fluency is a broad term, and you'd need a minimum of a year to get even close to spoken fluency in Chinese.What HSK level is fluent? In other words, make sure you're learning relevant Chinese characters. For a word count, the HSK tests put basic fluency around Level 4, but Level 6 is when you can effectively express yourself in spoken or written Chinese.Is Chinese harder than Japanese? Which is harder to learn, Chinese or Japanese? ... So for English speakers, Chinese is easier than Japanese from this aspect. Chinese grammar is generally considered a lot easier to learn than Japanese. Chinese is an isolating language, even more so than English, with no verb conjugations, noun cases or grammatical gender.Can Japanese read Chinese? And Japanese can read a Chinese text, but Chinese, unless they know kanas (and even that may not help them so much, because they should also have some smatterings of Japanese grammar articulations) will have no doubt a harder time . .
