About the course Moving paper toys

Course Presenter : 123 Easy Paper Crafts DIY

Moving paper toys, teaches you how to design and build creative moving paper toys using simple materials and clever mechanisms. Step-by-step lessons show you how to combine cutting, folding, and assembling techniques to create toys that spin, slide, pop, bounce, or move using levers, pull-tabs, wheels, and basic linkages. You will explore different motion designs, experiment with paper engineering principles, and learn how to strengthen structures for smooth, durable movement. The course also covers choosing the right paper, adding color, decorating characters, and customizing each toy for unique results. Perfect for beginners, teachers, parents, and craft lovers, it encourages creativity, problem-solving, and hands-on learning. By the end, youâ€™ll be able to create fun, interactive paper toys ideal for classrooms, gifts, storytelling projects, and playful craft collections. 123 Easy Paper Crafts DIY
