About the course making origami sea animals

Course Presenter : HOHO Happy Origami

making origami sea animals course, introduces learners to the creative art of crafting ocean-themed animals using simple origami paper-folding techniques. This course guides students step by step through the fundamentals of origami, starting with basic folds and progressing to complete sea animal models such as fish, dolphins, whales, turtles, octopuses, and more. Learners will discover how to choose suitable paper, create clean and accurate folds, and shape fins, tails, and other features to bring each sea creature to life. The course also encourages creativity by exploring different colors, sizes, and design variations inspired by marine life. Designed for beginners, kids, teachers, and craft lovers of all ages, no prior origami experience is required. By the end of the course, participants will be able to confidently create a variety of origami sea animals for decorations, educational activities, gifts, or fun creative projects.
