About the course Making origami humans

Course Presenter : Origami Easy

Making origami humans course, in this course introduces you to the art of creating human figures using origami techniques. You will learn step by step how to fold paper into simple and expressive human shapes, focusing on structure, balance, and proportions. The lessons explain basic and intermediate folds that help you form the head, body, arms, and legs in a clear and easy way. You will also discover tips to improve symmetry, create stable standing figures, and add character through small details, all without using glue or scissors. By the end of the course, you will be able to make different origami human figures, experiment with poses and paper colors, and understand the principles behind shaping figures with paper. This course is suitable for beginners, students, and origami lovers who want to expand their skills and enjoy creative paper art projects. Origami Easy
