About the course Making origami ninja star

Course Presenter : Origami Easy

Making origami ninja star course, in this course teaches you how to create a classic origami ninja star using simple and fun folding techniques. You will learn step by step how to fold identical paper pieces and assemble them into a strong, balanced star without using glue or scissors. The lessons explain basic origami folds, symmetry, and alignment, helping you achieve a clean and professional result. You will also discover tips for choosing the right paper size, combining colors for a striking design, and improving accuracy during assembly. By the end of the course, you will be able to make different origami ninja star variations, experiment with patterns, and understand the principles of modular origami. This course is suitable for beginners, kids, and origami lovers who enjoy creative paper crafts and hands-on projects that are both fun and skill-building. Origami Easy
