About the course Claude code

Course Presenter : Net Ninja

Claude code course, introduces developers to using Claude, an advanced AI model, as a smart coding assistant in real-world software development. This course explains how to collaborate with Claude to generate clean, well-structured code, understand existing projects, and solve programming problems efficiently. You will learn how to write effective prompts, review and refine AI-generated code, and apply Claude to common tasks such as debugging, refactoring, and building APIs. The course also covers best practices for maintaining code quality, security, and performance when working with AI assistance. By the end of the course, you will be able to integrate Claude into your daily development workflow, improve productivity, and deliver scalable, maintainable applications across web, backend, and software projects. Programming Category's Courses

Course Lesson(10)

Lesson 1 : **Claude Code Tutorial 1 Introduction Setup**

Lesson 2 : **Claude Code Tutorial 2 CLAUDE md Files init**

Lesson 3 : **Claude Code Tutorial 3 Context**

Lesson 4 : **Claude Code Tutorial 4 Tools Permissions**

Lesson 5 : **Claude Code Tutorial 5 Planning Thinking**

Lesson 6 : **Claude Code Tutorial 6 Slash Commands**

Lesson 7 : **Claude Code Tutorial 7 MCP Servers**

Lesson 8 : **Claude Code Tutorial 8 Subagents**

Lesson 9 : **Claude Code Tutorial 9 Claude Code with GitHub**

Lesson 10 : **Claude Code Tutorial 10 Final Thoughts Tips**
