# About the course Google data studio with google search console

### Course Presenter : Loves Data

Google data studio course, Google Data Studio Course is a practical beginner-friendly training program designed to help students learn how to transform raw data into professional, interactive dashboards and reports. In this course, students will understand how data visualization works, why reporting is important for digital marketing and business decisions, and how to connect Google Data Studio with multiple data sources like analytics platforms, spreadsheets, and advertising tools. The course is explained in a simple and practical way suitable for beginners, marketers, business owners, and data analysts. After completing the course, students will learn: How to create and configure a Google Data Studio account. How to connect different data sources to build reports. How to design interactive dashboards using charts and tables. How to filter and customize reports for better data analysis. How to share and automate reports for teams and clients. This course is completely free, and students will receive a free accredited certificate after successfully completing the course. Loves Data
