About the course Selenium with Java from zero

Course Presenter : SDET QA

Unlock the power of automation with our comprehensive online training course, Selenium with Java from Zero. Designed for aspiring programmers and IT professionals in the Middle East and beyond, this course offers a complete pathway to mastering automation testing, a vital skill in today's software development landscape. Whether you're looking to enhance your programming abilities or advance your career in quality assurance, this certified course provides the tools and knowledge to succeed. Throughout this training course, you will learn how to develop and execute effective automated tests using Selenium WebDriver with Java. The course emphasizes practical skills, enabling you to implement automation strategies that improve testing efficiency and software quality. By the end of this program, you'll be equipped to handle real-world testing challenges confidently. What you will learn: - Fundamentals of programming with Java - Setting up Selenium WebDriver for automation testing - Writing efficient and maintainable test scripts - Debugging and troubleshooting automation scripts - Best practices for test automation frameworks - Integrating Selenium with other testing tools and frameworks - Techniques for reporting and analyzing test results This course is ideal for beginners in programming, QA professionals aiming to expand their skill set, and software developers interested in automation. No prior experience with Selenium or Java is required, making it accessible for all committed learners seeking to grow their professional skills. Why choose this course on our platform: - Expert-led training with industry-relevant content - Hands-on projects for real-world experience - Flexible online learning suited for busy schedules - Recognition through a professional certification - Supportive learning community and instructor assistance Enhance your career prospects in software testing, automation engineering, and quality assurance roles. Proven skills in Selenium with Java open doors to opportunities in software companies, IT firms, and digital transformation projects across the Middle East and globally. Upon completing this program, you will receive a certified course certificate, validating your expertise in automation testing with Selenium and Java. Elevate your professional profile and accelerate your career growth with this essential training course. SDET QA

Programming Category's Courses

Course Lesson(57)

Lesson 1 : **Session 56 Selenium with Java Hybrid Framework Jenkins CI Setup Final Session**

Lesson 2 : **Session 55 Selenium with Java Hybrid Framework Git GitHub Workflow**

Lesson 3 : **Session 54 Selenium with Java Hybrid Framework Docker Integration with SeleniumGrid**

Lesson 4 : **Session 53 Selenium with Java Hybrid Framework Run Tests on Selenium Grid**

Lesson 5 : **Session 52 Selenium with Java Hybrid Framework Grouping Tests Extent Reports**

Lesson 6 : **Session 51 Selenium with Java Hybrid Framework Data Driven Tests Apache POI**

Lesson 7 : **Session 50 Selenium with Java Hybrid Framework Logs Properties Cross Browser**

Lesson 8 : **Session 49 Selenium with Java Hybrid Automation Framework Page Object Model**

Lesson 9 : **Session 48 Selenium with Java Hybrid Automation Framework Project POM**

Lesson 10 : **Session 47 Selenium with Java TestNG Page Object Model Pattern**

Lesson 11 : **Session 46 Selenium with Java TestNG Listeners Extent Report Generation**

Lesson 12 : **Session 45 Selenium with Java TestNG DataProviders Parallel Testing**

Lesson 13 : **Session 44 Selenium with Java TestNG Dependency Methods Grouping Tests**

Lesson 14 : **Session 43 Selenium with Java TestNG Annotations Types Of Assertions**

Lesson 15 : **Session 42 Selenium with Java TestNG Integration Setup Test annotation**

Lesson 16 : **Session 41 Selenium with Java Data Driven Testing with MS Excel**

Lesson 17 : **Session 40 Selenium with Java Data Driven Testing Working with MS Excel**

Lesson 18 : **Session 39 Selenium with Java Handling Broken Links SVG Elements Shadow DOM**

Lesson 19 : **Session 38 Selenium with Java Screenshots Headless SSL Ad Block Extensions**

Lesson 20 : **Session 37 Selenium with Java JavascriptExecutor Scrolling Pages Upload Files**

Lesson 21 : **Session 36 Selenium with Java Keyboard Actions Sliders Tabs Windows**

Lesson 22 : **Session 35 Selenium with Java Mouse Actions Action Vs Actions**

Lesson 23 : **Session 34 Selenium with Java Handling Date Pickers**

Lesson 24 : **Session 33 Selenium with Java Handling Dynamic Pagination Web Table**

Lesson 25 : **Session 32 Selenium with Java Handling Auto suggest Dropdown Static Web Table**

Lesson 26 : **Session 31 Selenium with Java Handling Different Types of Drop downs**

Lesson 27 : **Session 30 Selenium with Java Handling Frames iFrames Nested iFrames**

Lesson 28 : **Session 29 Selenium with Java Handling Check Boxes Different Types of Alerts**

Lesson 29 : **Session 28 Selenium with Java WebDriver Methods Browser Navigation Commands**

Lesson 30 : **Session 27 Selenium with Java WebDriver Waiting Methods**

Lesson 31 : **Session 26 Selenium with Java WebDriver Methods**

Lesson 32 : **Session 25 Selenium with Java Locators XPath Axes SelectorsHub**

Lesson 33 : **Session 24 Selenium with Java Locators XPath XPath Functions XPath Types**

Lesson 34 : **Session 23 Selenium with Java Locators CSS Selector**

Lesson 35 : **Session 22 Selenium with Java Locators ID Name LinkText PartialLinkText Class Tag**

Lesson 36 : **Session 21 Selenium with Java Introduction Environment Setup**

Lesson 37 : **Session 20 Collections in Java ArrayList HashSet HashMap**

Lesson 38 : **Session 19 Type Casting in Java Up Casting Down Casting in Java**

Lesson 39 : **Session 18 Exception Handling in Java Try Catch Finally Blocks**

Lesson 40 : **Session 17 Wrapper Classes Data Conversion Packages Access Modifiers**

Lesson 41 : **Session 16 Java OOPS Concepts Data Abstraction Interface Concept in Java**

Lesson 42 : **Session 15 Java OOPS Concepts Method Overriding final super keywords in java**

Lesson 43 : **Session 14 Java OOPS Concepts Inheritance and Types of Inheritance in Java**

Lesson 44 : **Session 13 Java OOPS Concepts Usage of this and static keywords in Java**

Lesson 45 : **Session 12 Java OOPS Concepts Polymorphism Encapsulation Overloading**

Lesson 46 : **Session 11 Java OOPS Concepts Java Methods Constructors Java Selenium**

Lesson 47 : **Session 10 Java OOPS Concepts Class Object Methods Java Selenium**

Lesson 48 : **Session 9 Java Strings String Immutability String StringBuilder StringBuffer**

Lesson 49 : **Session 8 Working with Java Strings String Methods Java Selenium**

Lesson 50 : **Session 7 Working with Java Arrays Coding Examples on Arrays Java Selenium**

Lesson 51 : **Session 6 Working with Java Arrays Single two dimensional Java Selenium**

Lesson 52 : **Session 5 Working with Java Loops Jump Statements Java Selenium**

Lesson 53 : **Session 4 Working with Java Conditional Statements Java Selenium**

Lesson 54 : **Session 3 Working with Java Operators and Expressions Java Selenium**

Lesson 55 : **Session 2 Working with Java Variables and Data Types Java Selenium**

Lesson 56 : **Session 1 Introduction To Java JDK Eclipse Installation Java Selenium**

Lesson 57 : **Selenium with Java Introduction to Automation Selenium 2024 New Series**
